

## C7500 Series Industrial Colour Printer

The C7500 series are four-inch industrial colour label printers to produce labels in-house and on-demand in high volumes. They are high speed digital label printers and offer high-quality, high-resolution, colour matched print output as standard. The printer is designed to reduce the need for pre-printed label stock and thus save time cost and inventory.

### Key Features

*Excellent reliability and time saving*

*Easy integration*

*Low maintenance*

*Easy to use*

*High resolution, high quality*

*Produce on-demand digital 4 colour labels*

Easy to use with minimal maintenance, the C7500 is aimed at customers who require durable prints and primarily want to print onto matt media. It is the ultimate in short-run colour label digital printing, meeting labelling needs with outstanding speed and quality. The C7500 can help eliminate the costs associated with pre-printing by producing short-run, customised labels on-demand.

With low maintenance, reduced downtime and print speeds of up to 300mm/sec at image resolution of 600x1200dpi. The C7500 produces high quality prints at high speed and allows full colour production, at the same speed as some thermal monochrome printers.

Designed for use with food and beverage products, packaging, and boxes, as well as EU Energy Labels GHS Labels. The printer has a new printhead to ensure reliable, high-quality results, preventing misprints and dead pixels for consistent printouts. Excellent reliability & endurance as standard.

## TECHNICAL SPECIFICATIONS

Dimensions (H x W x D):  
C7500: 397 x 392 x 598mm

Weight:  
36.7kg

Construction: Aluminium frame with metal door

### USER ENVIRONMENT:

Operating Temperature: 5°C to 40°C (40°F to 104°F)

Relative Humidity: 20% to 85% non-condensing

Storage Temperature: -5°C to 60°C (23°F to 140°F) Storage Humidity: 5% to 85% non-condensing

### PRINT TECHNOLOGY:

Printer Type: Inkjet

Printhead: Precision core – 600 nozzles per colour

Max. Print Width: 108mm

Max. Print Speed: Max. 300 mm/sec at 600 x 1200 DPI (printing width 108mm)

### MEDIA:

Media Types: Die-cut label, black mark label

Materials: Vellum labels & paper, matt coated, glossy coated, PP

### OPTIONS:

Reflex Systems offer a full range of consumables products for your printer: labels, ribbons, print heads and spare parts. Reflex can configure and supply rewinders and applicators to create an automated workflow.

### SERVICE COVER:

On-site service contracts can be arranged working with Epson, please call us for up to date information.
