

C6000 Series Industrial Colour Printer

The C6000 series are four-inch industrial colour label printers to produce labels in-house and on-demand in small-to-mid volumes. They are digital 4 colour label printers supporting media widths, from 25.4mm to 112mm and boast expanded media support which even includes textured paper. The series includes peeler-equipped (Pe) and auto-cutter (Ae) models.

Key Features

Compact design

Label width as small as 25.4mm

Optional models available

Easy to use

High resolution, high quality

Produce on-demand digital 4 colour labels

These label printers offer high-quality, high-resolution, four-colour print output as standard; along with colour matching functionality (ICC profile and spot colour matching tool) for impressive, impactful, on-demand colour labels. The C6000 series benefits from a wealth of features that are designed to provide practical and creative solutions. It supports media widths, from 25.4mm to 108mm and boasts expanded media support which includes textured paper.

This range of label printers can print anything from 1" across labels up to large sizes suitable for chemical drum labelling. The matt black ink version (for both Pe and Ae models) also provides users with increased print finish flexibility on textured or plain paper

They are designed to be user friendly with a compact footprint: all operations can be carried out from the front, which saves on operation space. The roll replacement is possible from the front, right and left. There are several technical tools to help with printer management, configuration, and maintenance, including: web interface and printer fleet management, remote configuration, maintenance, and monitoring.

TECHNICAL SPECIFICATIONS

Dimensions (H x W x D):
C6000: 326 x 340 x 565mm

Weight:
26kg

Construction: Aluminium frame with metal door

USER ENVIRONMENT:

Operating Temperature: 5°C to 40°C (40°F to 104°F)

Relative Humidity: 20% to 85% non-condensing

Storage Temperature: -5°C to 60°C (23°F to 140°F) Storage Humidity: 5% to 85% non-condensing

PRINT TECHNOLOGY:

Printer Type: Inkjet

Printhead: Precision core – 800 nozzles per colour

Max. Print Width: 108mm

Max. Print Speed: Max. 119 mm/sec at 300 x 600 DPI (printing width 108 mm)

MEDIA:

Media Types: Continuous label, continuous media, die-cut label, black mark paper, black mark label

Materials: Vellum labels & paper, matt coated, glossy coated, PP

OPTIONS:

Built-in peeler model (CW-C6000Pe), Auto-cutter model (CW-C6000Ae), Matt black ink version available for both models.
