# Parcelcube 900 and 900XL

Static dimensioning/cubing system for parcel shipping and warehouse management.
Parcelcube's static dimensioning system (dimensional weighing) for efficient dimension and weight capture in receiving, shipping and POS desk operations.
Available in 2 sizes to best suit your business requirements.

## Key Features

*Accurate & efficient*
*Operator friendly PC interface*
*Reliable & fast data capture*
*Check all dimensions & weights*
*Capture weights & dimensions at the click of a button*

The inclusive PC software has real-time data transfer and allow the capture of weights and dimensions of parcels at the click of a button.

Both models are available to enable you to choose the one most suited to your business needs and environment. Both models are designed to be statically placed for maximum reliability and repeatable accuracy. An optional Mobile Cart allows the ParcelCube to become a flexible part of your working environment. Place your object on the bed, press a button or read a barcode and ParcelCube will capture the dimensions and weight of the box. Data is captured in less than one second – accurately and efficiently!

## TECHNICAL SPECIFICATIONS

Dimensions (H x W x D):                         Weight:
900: 113 x 68 x 68mm                            17.5kg (35.6lb)
900XL: 113 x 88 x 88mm                          25kg (55.1lb)

## PERFORMANCE CHARACTERISTICS:
Measuring capacity:
Minimum: 40 x 40 x 20mm
Maximum: 620 x 620 x 940mm 900  | 820 x 820 x 940mm 900XL
Dimensional increment: 0,1 cm / 0,3 cm / 1,0cm

Weight capacity:
Minimum: 0.05kg (0.11lbs)
Maximum: 55kg (120lbs
Weight increment: 0.005kg (0.011lbs)

Power supply: 100-240Vac
Measuring sensor: Ultrasonic
Weigh sensor: 4x load cell
Weight indicator: RS232
Data output: CSV / XML / HTTP
User interface: Windows

## USER ENVIRONMENT:
Operating Temperature: 10°C to 30°C (30°F to 86°F)
Relative Humidity: 25% to 85% non-condensing

## OPTIONS:
Mobile Cart, handheld barcode scanner, label printer, webcam. Reflex can configure and supply printers, rewinders and applicators to create an automated workflow.
