Thermal Transfer Resin Ribbon

The Reflex Resin ribbon range is formulated for applications where durability is essential.

Offering a range of resin ribbons designed to give print versatility over an extremely broad range of flexible films and labels. The resin ribbons are designed to survive abrasion and exposure to elements, such as printing of chemical containers, pharmaceutical items, engine parts, and outdoor applications

Key Features

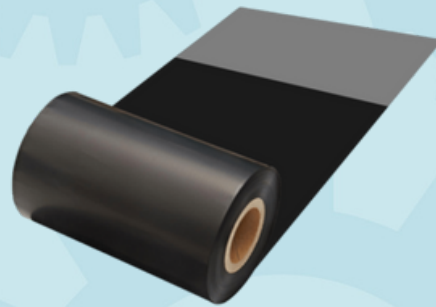

- Low printhead energy
- Abrasion resistance
- Scratch resistance
- Flexible print
- High density print
- Chemical resistance to common agents
- Chemical resistance to hazardous chemicals
- High speed
- Antistatic back coating

APPLICATIONS:

Aerospace, Healthcare, Automotive, Flex Packaging, Appliance, Fresh Produce, Food, Horticulture, Industrial, Timber, Pharmaceuticals, Tyres, Warehouse

TECHNICAL PROPERTIES:

Carrier: 4.5µm Polyester film
Thickness: < 9.0 µm
Colour: Black
Ink Melting Point: 95°C
Substrates:
Synthetics: Polyester, Polyethylene, Polypropylene, PVC
Winding: Inside / Outside
Core Type: Twin Plastic Core

OPTIONAL EXTRAS:

Reflex Systems offer a full range of consumables products for your printer: labels, ribbons, print heads and spare parts. Reflex can configure and supply rewinders and applicators to create an automated workflow.

SERVICE COVER:

Reflex operate our own team of field service engineers (all OEM trained) offering 8 hour on-site response (office hours), parts and labour or labour only, to ensure you have the cover for your critical activities.
