## Systems

### Thermal Transfer Wax/Resin Ribbon

Offering high levels of scuff, chemical and moisture resistance the Reflex Wax Resin range ensures quality barcodes and text print on paper and card materials. The ribbon is also ideal for print onto filmic surfaces. The Reflex Range of Wax Resin Ribbons is a global market leading product for over 20 years. With its construction ideal for coated and uncoated papers and card, as well as filmic applications. With rub-resistant print ensuring your product (VIP) print remains scuff and smudge free. Available inside and outside wound to meet the needs of all of the worlds label print manufacturers. Zebra, Sato, Printronix, Toshiba, Datamax, Honeywell

#### Key Features

- Low printhead energy
- Abrasion resistance
- Scratch resistance
- Flexible print
- High density print
- Chemical resistance to common agents
- Chemical resistance to hazardous chemicals
- High speed
- Antistatic back coating

#### APPLICATIONS

Blank labelling, Printed Labels, Filmic substrates, Fresh produce, Food, Retail, Warehouse, Logistics, Pharma, Industrial, Agriculture

#### TECHNICAL PROPERTIES:

Carrier: 4.5µm Polyester film  
Thickness: < 8.0 µm  
Colour: Black  
Ink Melting Point: 70°C  
Substrates:  
Papers: Uncoated, Coated, Card  
Synthetics: Polyester, Polyethylene, Polypropylene  
Winding: Inside / Outside  
Core Type: Single Card Core, Twin Card Core

#### OPTIONAL EXTRAS:

Reflex Systems offer a full range of consumables products for your printer: labels, ribbons, print heads and spare parts. Reflex can configure and supply rewinders and applicators to create an automated workflow.

#### SERVICE COVER:

Reflex operate with our own team of field service engineers (all OEM trained) offering 8 hour on-site response (office hours), parts and labour or labour only contracts, to ensure you have the cover for your critical activities.
