Reflex's ST1Tech In-line Labeller for Cylindrical Products

A premium and affordable range of industrial in-line labeller for cylindrical products. Versatile optional installations allow application of full and semi wraparound and/or front & back labels to cylindrical objects. A further option allows application to conical products.

They're fully synchronized machines with 1 head for labelling cylindrical products (diameter 30 to 150 mm), with 0-30 m / min variable speed conveyor belt and colour touch screen. Labels from 10 to 230 mm width and up to 500 mm in length. The system can record up to 50 different label settings.

Key Features

Can be supplied for left or right handling depending on operational requirements

Easy to use colour digital touchscreen

Store up to 50 label settings

Protected engineering mode

Operates with self-adhesive labels up to 230mm in width and 500mm in length

Why choose Reflex's UTech Labeller?

The Reflex ST1Tech is the ideal solution for cylindrical (or optionally conical) only products that require accurate placement of labels. It can be easily integrated with existing production lines.

It eliminates the need for applying labels by hand, providing time and manpower savings whilst ensuring consistent quality.

The system operations on a linear basis, synchronising its conveyor speed to ensure labels are applied consistently and with precision.

Directions

Optional Extras

Castors for flexibility to label on different production lines

Ultrasonic sensor to apply clear labels

Mounting plate for inkjet or thermal transfer printer

End of label detection with visual beacon

Product rejection system

Critical spares kit

Rotary collecting tables on the infeed or outfeed of the conveyor

OPTIONS:

Reflex offer a full range of complimentary and consumable products for your operation, Labels, Ribbons and spare parts.

SERVICE COVER:

Reflex operate our own team of field service engineers (all OEM trained) offering 8 hour on-site response (office hours), parts and labour or labour only contracts, to ensure you have cover for your critical activities. Geographical exclusions apply.
